

IntelliKnight™ Series

The Choice is Elementary.

- *Cost effective systems for retrofit or new construction*
- *Grows with your schools*
- *Non-proprietary systems available*
- *Emergency voice evacuation*

Fire Alarm Systems that Work for Your Schools

Silent Knight is proud of their long history of serving the education community. In fact, our reputation as the fire alarm system for schools was built upon many satisfied customer experiences. Silent Knight offers a very wide range of products to meet the needs of your schools. Use the same fire alarm control panels for both large and small school systems, along with expanding facilities and growing campuses.

Retrofits

Silent Knight systems can work with existing wiring from an old system, saving you the cost of rewiring your building.

5820XL

#1 seller for school fire alarm systems

- Highly reliable control panel reduces false alarms
- Large capacity range fits most school needs
- School maintenance staff can do minor maintenance work like changing a smoke detector or pull station

SKE-450 Voice Evacuation System

Combine voice evacuation with the fire alarm system

- Flexible so it can work with your design
- Effective and easy to use
- Protection for your assembly locations

IP Communicator

Use IP lines to monitor your fire alarm system, through either a central station or locally, and eliminate the cost of a telephone line

- Adaptable to most systems
- Saves money
- More reliable and secure than phone lines

Silent Knight Fire Systems are schooled in protection.
