# Conventional Wisdom Has a New Address

Step up to addressable fire alarm systems with the affordable IntelliKnight 5600 from Silent Knight.

The 5600 is a 25 point, single loop, addressable fire alarm control/communicator system. It provides the revolutionary value and performance of addressable sensing technology combined with exclusive, built-in digital communication that includes an easy to use interface.

With code wheel addressable detectors/modules and Jump Start™ feature, the 5600 can be Life Safety operational without a single programming tool. Powerful features such as drift compensation and maintenance alert are delivered in this Fire Alarm Control Panel from Silent Knight.

The Intelliknight 5600 supports the cost-effective, Honeywell Fire Systems detectors and modules. It also features a powerful built-in dual line fire communicator that allows for reporting of all system activity to a remote monitoring location.

## Powerful Features Include:

- Addressable technology that is as easy to use as a 5 zone conventional panel
- Code wheel addressable detectors/modules and JumpStart™ feature
- No programming tools required for basic panel operation
- Built-in digital communicator/dialer
- IP communicator compatible
- Point status meets calibrated smoke test requirements for NFPA 72
- Supports the cost-effective Honeywell Fire Systems (HFS) detectors and modules
