5230 Remote Annunciator

The 5230 is a remote annunciator that provides both trouble and alarm annunciation, and a convenient means for programming the 5104, 5128/29, 5204, and the 5207.

When the system is normal and receiving AC power, the power LED is on.

Users identify themselves to the control panel by entering a code on the annunciator. When a user presses a button, the annunciator piezo beeps and the LCD prompts the user to enter a code or other relevant information.

INSTALLATION
Mounts to dual gang electrical box with the rear mounting plate

COMPATIBILITY
The 5230 is compatible with the following Honeywell Silent Knight FACPs:

- 5104: 3 per Communicator
- 5204: 3 per FACP
- 5207: 7 per FACP
- 5128/29: Programming only

FEATURES & BENEFITS

- 2-line 16-character LCD display
- Indicates Trouble, Alarm, Supervisory, and System Status conditions with LEDs and LCD display
- Each 5230 individually supervised by the FACP
- 12 to 18 AWG wire with up to 1000 ft wire runs from FACP
- Easily set ID using four dip switches on back of unit
- Easy quick connect option to temporarily connect to the panel for programming (using PN 130294 quick connect cable).
