6855 Remote Annunciator

The 6855 remote annunciator, can be used to operate and program Honeywell Silent Knight fire alarm control panels (FACPs) from anywhere within the system. It provides a convenient way to view system status indicators.

The 6855 comes in a locked, key controlled cabinet - combining security with easy access. It does not require a code or firefighter’s key to silence or reset the panel. It also has convenient separate scroll buttons for alarm, supervisory, and trouble conditions.

The remote annunciator communicates with the main fire alarm control panel through an RS-485 connection. When the system is in normal operation and has AC power, the Power LED is lit and all other LEDs are off. The other LEDs turn on as alarms, supervisories, troubles, system silenced, and AC power losses occur.

COMPATIBILITY

The 6855 is compatible with the following Honeywell Silent Knight FACPs:

- 6820: Addressable fire alarm control panel with up to 1,110 addressable points
- 6820EVS: Addressable fire alarm control panel with an emergency voice system, up to 1,110 addressable points
- 6808: Addressable fire alarm control panel with up to 198 addressable points
- 6700: Addressable fire alarm control panel with up to 100 addressable points

FEATURES & BENEFITS

- 80-character backlit LCD display (4 lines with 20 characters per line) provides ample space for messaging and is easy to read
- Comfortable tactical feel and clear audible confirmation supports accurate programming and easy operation
- Larger keypad buttons makes it easier to maneuver for system reset and silencing
- Initiate and end fire drills with a single key press
- Easily view current status by alarms, supervisories, or troubles
- On-board piezo sounder audibly indicates alarms, troubles, and supervisories
- Five status LEDs make it easier to monitor and respond to status changes. They include: Alarm, Supervisory, Silence and AC Power indicators.
- Accommodates wiring lengths up to 6000 ft. from the control panel for added design and install flexibility
- System access is gained either through a user code or firefighter’s key
- Support for simultaneous use of multiple 6855s
- Can be flush or surface mounted depending upon design and installation needs
- Trim ring available for surface mounting.
