

TECH-ED KNIGHT SCHOOL

Silent Knight is proud to present Tech-Ed Knight School, a comprehensive approach to learning about the fire industry and Silent Knight products. This is a 3-day technical hands-on class designed for technicians who install and maintain Silent Knight addressable fire alarm control panels (FACPs) focusing on these models: 6700, 6808, 6820, and 6820EVS. This course will introduce technicians to system installation, SLC devices, emergency voice systems (EVS), programming and troubleshooting using the HFSS Software.
